

IR-220 Full Automatic Computerized Wire Cutting and Stripping Machine

Advantages:

1. New type economic high speed design, productivity over 10000 times per hour with cutting and stripping, perfect for 12# to 32# cable.
2. It is with super short design, can be with 5mm cable by both ends stripping, half stripping, middle striping with many stages, and whole stripping.
3. This machine is with stable performance, easy operation and LCD.
4. Fine workmanship, perfect appearance, it is the first choice of cable cutting machine.
5. It is designed for wire processing factories, invert device factories, plug producers and other any factories who need cable wire stripping machine.
6. It is also suit for strip cutting, heat shrink tube cutting and casing cutting;
7. The structure of this machine is original from Japanese knife shelf, low noise and low cost of energy.
8. Four-wheel drive, high precision.

Technical Data:

Product Name	IR-220 Full Automatic Computerized Wire Cutting and Stripping Machine
Brand Name	IDEAL
Model	IR-220
Voltage	AC 220V
Power	180W
Frequency	60HZ/50HZ
Operation System	Touch Screen
Display	LCD
Cable Type	Electronic PVC cable, teflon cable, fiberglass cable
Cable SPE	AWG#12-AWG#32
Stripping length	0.1-30mm (depends on material of wire)
Tolerance	$\pm(0.002*L)$ mm
Max Cutting length	0.1-6000mm
Productivity	5000-6000PCS/H
Noise Level	<70dBA
Net Weight	39KG
Gross Weight	41KG
Package	Export Export Wooden Case
Package Size	48*75*39cm
Machine Size	45*72*36cm
Delivery Time	Immediate Exstock
Warranty	Warranty for one year with lifetime maintain service
Simultaneously Cutting	2 pieces (supply ODM service)
